FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

sensior Voorhees Offers a Resolution Relative to the Financial Part of the Message.

SENATE.

WASHINGTON, Dec. 8 .- Senator Voorhees offered a resolution declaring that the Senate had heard, with deep regret, the propositions of the President and the Secretary of the Treasury in their messages to inaugurate a new and uncalled-for financial agitation and destruction of the most necessary currency now in circulation; and that the interests of the currency require a free and unlimited coinage of both gold and silver on conditions of exact equality, and that it is a part of a wise financial policy to maintain the present value of the greenbacks in circulation. and to preserve their legal tender quality unrestricted and unimpaired as to their legal effect. Laid on the table, to be called up by Senator Voorhees here-

after.
A message was received from the House announcing the adjournment of that body upon the announcement of the death of Representative Lay and the appointment of a committee to make arrangements for his, funeral, and reuesting a similar committee be appointed by the Senate. The chair appointed Senators Vest, Kirkwood and Walker, and at 12:65 P. M., on motion of Senator Vest, as a further mark of respect for the memory of Representative Lay, the Senate adjourned.

The Senate Judiciary Committee today held its first meeting for the present session. The nomination of Secretary McCrary was taken up for consideration, and the committee after a brief discussion authorized the chairman to report it back to the Senate with the ecommendation that it be confirmed. HOUSE.

In his prayer this morning the Chaplain alluded in a feeling manner to the death of A. M. Lay, of Missouri, who had been cut down in the prime of life and usefulness.

Immediately after the reading of the journal, Mr. Clark, of Missouri, an-nounced to the House the death of his colleague, Hon Alfred M. Lay, stating that it was not his intention at this time to speak 28 the love he bore his late colleague would prompt him, but at some future time he would do so. He then offered resolutions expressing the regret which the house experienced at the death of Mr. Lay, and to provide for the appointment of a committee to conseven members and three Senators to take orders for superintending the funeral ceremonies. The resolutions were adopted, and

the Speaker appointed Messrs, Clark, of Missouri, Morrisson, Hill, Hill, Bingham, Chalmers, Calkins and Ryan, of Kansas, as such committee on the part of the House. The House then, as a mark of respect to the memory of the dead Representa-

tive, at 12:15 adjourned.

Ouray's Ultimatum.

Los Pinos Agency, Dec. 6.-The following answer to the demand of the Commissioner has just been delivered by Ouray: "We will deliver for trial Douglas and those Indians engaged in the massacre of Meeker and his emloyees, provided they are tried in Washington. The people of Colorado are not friendly, and a fair trial here or in New Mexico is not to be expected.' Runners have been just started by order of Ouray to bring in those Indians called for by the Commission.

A Mexican Raid.

GALVESTON, Dec. 7 .- A dispatch to the News from San Antonio says: A well founded rumor is prevalent here that a party of twenty-five Mexicans has raided M. Callenes stock ranch on the Rio Grande. The people on the ranch were tied to trees while the premises were robbed of money and e valuables. A large number of horses and mules were driven off by the marauders.

Railroad Accident.

St. Louis, Dec. 7.—It is reported here to-night that the regular and a wind freight train were in collision early this morning on the Chicago and Alton railroad near Jersevville, Illinois, and that the engineer Richard Gilchrist was killed, and an unknown fireman badly injured. Wilmington Review. At the last session of the Legislature of North Carolina, a law was passed reducing the salary of the Judge of the Criminal Court of this county from \$2,500 to \$2,000 and also making it optional with the county to pay the salary of the Solicitor, in addition to fees, or not. The county did not hesitate to pay the salary of the latter, but concluded to take advantage of the law rel-ative to the former, and since April last the rate of \$2,000 per year. As the law creating the office stipulated that the salary of the Judge should be \$2,500 per annum, and his term of office has not yet expired, he thought he was entitled to the full sum named in the original law, and to test that matter a friendly suit was entered at the present term of the Superior Court for this county, where, after a careful and patient hearing, His Honor Judge Eure decided in favor of the claim of Judge Meares.

How the Negroes were Relieved. The St. Louis National Tribune, a newspaper published by colored men, complains vigorously of the misuse of the funds sent to that city for the re-lief of the negroes who fied from the South to avoid being compelled by brutal planters to take from \$3 to \$4 a day for picking cotton. It is asserted that the members of the St. Louis Relief Board voted away hundreds of dollars to themselves and their pet institutions and left the starving negroes utterly unprovided for. Similar stories come from Kansas. Meantime the poorspirited colored men who remained in Georgia, in the scanty moments of leisure when they were not engaged in the pleasures of the chase—or to speak more correctly, of the chased—in com-pany with ferocious bloodhounds, in he occupation of dodging Democratic sharpshooters, or in the monotonous business of wearing out hickory gads with their backs, have increased their property during the past year from \$5-124,875 to \$5,182,398. They have actually taken up 39,309 more acres of land, making their total holding 341,199 acres. The nominal increase in the value of their property is much less than the real increase, because the total valuation of taxable property is smaller this year than it was last. Fountain of justice, how long shall these outrages on the helpless negroes be permitted to go unrebuked of a strong Government! Humanity grasps for a reply! It must be sent through the post office with the name of the town and county legibly

An Improved Turbine.

Greensboro North State, 4th. Our fellow townsman, W. B. Farrar, has invented an improved turbine water wheel, which was tested yesterday at Benbow's Mill, near town. The wheel tested was 13‡ inches diameter, the entire space of the open gate being 41 inches, and was built by the Sergeant Manufacturing Company, of this place, under the supervision of the patentee. Under 7½ feet head of water, the wheel made 500 revolutions per minute and run a corn crusher, wheat fan, elevator and smutter, to their full speed, while wheel was put in the place of another 13 inch turbine, whose open gates are one more trial. A few months after, it 48 inches, and whose power under 11 bloomed and since that time hundreds bloomed and since that time hundreds tion for the missionary address of Colofilled to their utmost capacity. On Saturday about noon, during the prevalence of a thunder squall which passed over four city, a whirlwind caught in and blew down the frame work of a large steam saw mill building which was being erected for Mr. Samue Radeliff, at the foot of Pollock St. This is quite a serious loss to Mr. Radeliff, as the frame is a perfect wreck, much of the lumber being broken, rendering it totally unfit for further use.

The war on ducks and water fowl will soon begin in earnest in this section; the professional hunters have arrived, and have brought with them their boats, which are novel affairs; they are rather floats than boats. We examined one of these boats, or whatever you may call them, very carefully, and we found there was one very serious mistake in their construction; there is no place where the ducking man carries his bottle. This must be looked to. There is a place for such econdary considerations as the gun, the ammunition, the decoys and even the imaginary ducks, which are expected to be killed, but by Jupiter! the bottle is unprovided for. There certainly must be some mistake.

By Weight or Measurement.

Charlotte Observer. It will be of local interest here in Charlotte, as well as along the line of that road, to learn, as we do, from the Columbia Register, that Judge Mackey, of the Circuit Court of South Carolina, has, on motion of the Attorney General of South Carolina, issued a rule to the Charlotte, Columbia and Augusta Railroad Company, to show cause on the 9th instant, why an injunction should not issue prohibiting and restraining them from charging on bales of cotton by measurement in transportation of the same. This action is initiated by the Railroad Commissioner of South Carolina, General M. L. Bon-ham, to test the right of the company to charge freight on cotton otherwise than by weight. The company has recently classified cotton as a light article, and charges freight on it by measure-ment at the rate of fifteen cents per cubic foot. A case involving this issue was made at Chester against this com-pany in the year 1871, and decided by Judge Thomas in favor of the company. The next case, on which an appeal is now pending, entitled Elder vs. Charlotte, Columbia and Augusta Railroad Company, was heard about two months ago by Judge Wallace at Winnsboro, and also decided in favor of the company. In neither of these cases, however, was the State represented, and in order to a certain final determination of the issue and to meet the possibility of the appellant in the latter case abandoning the appeal, the railroad commissioner has deemed it due to the public to make the present issue before Judge Mackey, in order to finally settle the charter powers of the company as to their right to charge freight upon cotton otherwise than by weight.

TERRIBLE STORM AND FLOOD AT

ASPINWALL. The Panama Railway Under Water --- Travel Suspended--- Travelers

and Mails Detained. S D Adams, Presiding Elder. Hills-boro Station, J H Wheeler. Hillsboro circuit, E A Stone. NEW YORK, Dec. 8 .- Further particulars of the great storm and flood at Aspinwall state that about thirty miles of the Panama Railroad was submerged, and the freshet was the most destructive that had been known there for years. At Yattan, seven miles out where the railroad first strikes Chagres river, sixty-one houses have been washed away, and the people are reported to be destitute and suffering from hunger. In short, all the native Greensboro Station, DR Bruton, J C villages and river farms have been inundated. Live stock of all descriptions are drowned, and the poor inhabitants left to starve. As soon as the news of their sad condition reached Aspinwall a subscription was raised and several boat loads of supplies were sent out; but reports came back that the relief, though timely, was inadequate, and that to prevent starvation further and

immediate help was necessary. Under date of November 29th, it is stated that portions of the railroad are still under water. The reports of the serious damage to the Barbacoos iron bridge across Chagres river is fully confirmed. Two piers are undermined and the bridge has settled six feet and is in danger of falling into the river. The wash at Mindi will require

several days to repair, and it is thought it will be fully thirty days before the trains will again be run.

The English mails and passengers which arrived on the 24th instant are still at Aspinwall. Also those by the Colon, which arrived yesterday. No arrangements have yet been made for sending the mails forward, and the passengers must get on as best they can or bide where they are. All is con-

fusion and uncertainty.

THE subjoined additional article to the Constitution has been presented by Representative McCoid, of Iowa: Congress, for the prosecution of trade and manufacture and to carry into effect international treaties, shall have power to grant, protect and regulate the ex-

clusive right to use trade marks. WHEN the President calmly reads over the financial part of his message and sees the way his party is acting about it, he must fell as if he had put his foot in it .- Philadelphia Times.

Yes, he put his foot in it, but it would defy the most profound analyst to decide which foot he put in. The sabstance was too watery to retain the traces of an imprint.

THE members of Congress from the cotton-growing States are urging the superintendent of the census to ascertain the proportion of cotton produced by white labor. They maintain that more than fifty per cent. of the crop of the present year has been raised by white hands, and, to show this authoritatively, they think will induce white immigration into the Southern States.

TALK about southern bulldozers! They have done nothing so cruel in a long time as the burning a detenseless negro's feet and legs by a gang of Wyandotte (Mich.) roughs. A hightoned young scamp at Trenton, in the same State, has also shot a deaf and dumb negro, but hushed the affair by paying roundly for silence. The Detroit Post fails to howl, however, as it does when such things happen South.

THE Washington correspondent of the Chicago Tribune thus disposes of

Senator Vance: Zebulon B. Vance, one of those Co-lumbian orators of which the South has so many, succeeds the rotund, loquacious, unctuous Merrimon, of North Carolina. Vance is an excellent story. teller, and a fine stump-speaker. Time will tell whether his style of oratory will adapt itself to what is called dignity of the Senate." He made one speech which created a favorable im-

A RUMOR is circulating in Washington that the Democrats seeing no possible chance of repealing the election laws relating to supervisors and marposition to it and make it imperative that the deputy marshals shall be selected from the different political parties. This appears to be substantiated by the presentation of a bill by Representative Harris, of Virginia, for revision of the statues to that effect.

THE Boston Herald having launched out in a review of the"Tarheel Schools," it may not be out place to state how they do things in that country of great scholastic attainments. Somebody who knows how things are managed gives the New England Journal of Education the following glimpse into the management of the New England School Districts: "Now, when I'm committee-man yer see, I jest put my Melita inter our school, an' when my neighbor Cuttin' has it he puts in his Mary Ann, an' when it's Fisher's turn his niece, Sarah Jane Clark, gits the chance. None on 'em ain't no great shakes er scholars, tew be sure, but they manage to keep the young ones inside the old school-house."

THE colored people that went to Indiana on irresponsible assertions that they would find employment at \$40 a month and a house to live in are realizing the mistake they have made. Instead of partaking of a mixed diet of milk and honey they think themselves fortunate to get a piece of stale breod, and very littie of that. Perry and Williams, the chief inciters of the movement in this State, ought to be soundly flogged, as they were sent ahead, like the spies of Eschol, to view the prospect, and the grapes they have gathered are mighty sour. The immigration into Indiana will have no bearing on the next Presidential election, and we think the movement will turn out so slim that it will not reduce the representation of this State in Congress.

THE Atlanta Constitution has been accused of noticing the Clement attachment and cotton-seed oil mills for pay -that the articles advocating the establishment of such mills were nothing but advertisements. The Constitution, in replying to the assertion, takes the same ground that the NEWS does-that the publication of the articles would show how the business interests of the South could be advanced by the general adoption of these appliances and by making additional profit at home, instead of allowing it to be made abroad, that amount would be a material increase of the wealth of the State, besides affording remunerative work for a large number of people. The Constitution says:

A few-a very few-of our Georgia exchanges and some of their correspondents are insinuating that the articles in the Constitution are in the nature of advertisements. To say that they are mistaken is to give them the benefit of a good deal of politeness. Not a line that has appeared in these columns in regard to the attachment has ever been paid for, and no one is more surprised at the interest taken by the Constitution in the matter than the owners of the right. We have written up and advertised the attachment because we believe it to be the stepping-stone of Southern commercial independence; and the only pay we ever expect to get for our labors in that direction is the consolation that we were instrumental in calling the attention of our people to a cheap ad simple contrivance calculated to

put money in their pockets. AND even Republican Chicago has become a stickler for State Rights. A week or ten days ago a little blaze came off at Chicago, but the little blaze came near effecting disastrous results. They have a new illuminating mixture up Eckert & Winter's New York beer for that way termed "Hyperion Oil," and I five cents.

as an illuminator it is a complete success. Some of the stuff got away from the vendor, in consequence whereof his store and contents were destroyed, and he narrowly escaped with his life. An investigation was held, an analysis made of the stuff, which was found to bé a mixture of potash, paraffine and benzine, and the captain of the fire insurance patrol stated that he would as soon take his chance in a burning building where gunpowder was stowed as where the Hyperion Oil was kept. Ordinarily in cities an ordinance prescribes the standard of burning fluids, but the patentee claims that he has an United States patent for the stuff, and that it authorized him to sell it through his agents without it being subjected to city or State inspection. And now

the State rights question comes in. The city attorney of Chicago, to whom was expounded the peculiar point of law promulgated by the patentees of the Hyperion oil- to the effect that a United States patent saved an article from coming under the regulations of the city, said he could not at a moment's notice give an official opinion in the matter, but that his first impression was to the effect that the case in point involved a question of State right which the United States Government could not override. Each of these States of Union was invested by the Constitution with the power to regulate its own police organization, and if the city chose to forbid any article from entering it, er to permit it to do so under certain regulations, no other power could interfere. The United States Government had no more to say in the matter than had the City of Jericho. So it will be seen that the dangerous heresy

LET HIM COME.

as Chicago.

The artist, whose duty it will be to sketch the scenery of Western North Carolina, will miss a rare treat should he fail to visit Stokes county, as within her borders will be found some of the grandest mountain scenery on this continent. The Salem Press seems to be somewhat exercised in regard to this matter, and speaks as follows:

of State rights has reached as far North

"We hope that the artist who is to illustrate Western North Carolina in Harper's Magazine, will not forget to pay Stokes county a visit, and sketch some of the beauties of the Sauratown Mountains. More's Knob, Schweinitz Cascade, Pivot Rock, will make fine sketches, and besides these he can carry away with him bars of elastic sandstone and many little mineral gems. The unique "Pilot" deserves a spirited sketch, as there is nothing like it to be found North or South. The view of the Blue Ridge from near Mt. Airy is charming enough for any artist's sketch-book. The Pinnacles of the Dan also come in for a share of interest. All these localities are rather off the main roads of travel, but these "by ways" will insure fresh and attractive views.' We trust this artist will not give us the "go by," as all will accord to him a hearty welcome, and load him with

gams and flowers to decorate his paper

and interest his readers .- Danbury Re

Yes, let him come. To be sure he has him come again. His name is Graham. He was out in Jackson county and the "moonshiners" mistook him for a revenue officer-so he says. They visited his tent one night, stood around for a time and then "blazed" at him with their revolvers-so he says. But he wasn't a bit afraid; he would have gone over to the Indian reservation if his guide hadn't got scared-so he says. And what he said appeared in the New York Tribune, a regular diatribe against the mountaineers. The guide tells a different story story. Mr. Graham was not fired at, but on the contrary met with the kindest treatment, and then went to the New York Tribune office and concocted an infernal lie.

The artist whose duty it should be to sketch the points mentioned in the Press is Harry Fenn. He is an artist and a gentleman, His work in "Picturesque America" shows for itself, and this work gave the Carolina mountain region more notoriety in the matter of picturesque scenery than it had ever before enjoyed. The French Broad and scenes in the Asheville region were well portrayed, while the pen description was superb. But we want no more Grahams. He may be well up in his profession, but when a man takes to lying for diversion it soon permeates his whole being, and it is not sound judgment to except his fingers from the

POLITICAL NOTES.

It requires more than ordinary cheek for Hayes to revamp his old commonplaces about civil service reform for use in his so-called message after the exhibition be and his next friends have been making of themselves in the fall canvass .- New York Sun,

The Democrate have a big chance to redeem themselves. But, then, alas! they have had so many chances before. The country has had a good deal of political education since Congress adjourned, and voters will watch with interest to see if Democratic Congressmen have profited by the "stern tuition

of events."-Springfield Republican. The Democratic party has a genius for blundering, but the colossal blunder open to it now is for it to imagine that it is more important to conciliate the favor of Samuel J. Tilden than to try and deserve the respect of the people of the United States. - Wilmington (Del.) Every Evening.

If the President is going to be neutral. and content himself with the attitude of a financial essayist, nothing whatever will be accomplished. The currency will remain at its present inflated amount. The coinage of silver will go on. And we shall steadily and inevita-bly drift into a currency of far too great volume, based on depreciated silver coin .- New York Times.

In this State, Jarvis, Fowle and Scales, are the principal candidates now looming up as candidates for Governor in 1880, and in South Carolina, Hagood, Kershaw, Wallace and Gary, are the most prominently mentioned-Golds boro Messenger.

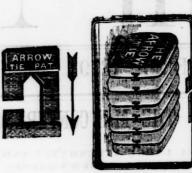

Southern Congressmen are very anxious that the right sort of men should be selected as supervisors of next year's census, and the South Carolina delegation has picked out Henry Hammond, J. K. Vance and Judge Townsend as the three men they want the Senate to confirm for their State. Republicans interpret this solicitude to mean an intention to cover up election frauds and the South's loss of population by a fraudulent count of noses, -Springfield Republican.

GOODMAN, MISS., May 6, 1878. H. R. STEVENS, BOSTON:

I have been suffering for 25 years with the Piles and found but little relief from any medicine that I have taken for many years past. Last winter I suffered considerably worse than ever before, also in connection with the property of the provider of the provide worse than ever before, also in connection with Rheumatism I was confined to my bed for several weeks. Having procured a bottle of Vegetine I took it with good effect. I continued the use, and after taking four or five bottles, find myself comparatively cured. I can enerfully recommend it for the benefits that I have received from it.

LOCAL BRIEFS.

-Rev. N. M. Jurney is in the city. —Governor Jarvis and wife arrived last night.

-Judge McKoy was in the city vesterday.

-Internal revenue receipts yesterday \$9,154.94.

Cotton: Middlings 121 Numbe of bales received 298. Tone of market -Dr. B. Craven and Dr. H. T.

Hudson are in the city, the guests of Dr. Bobbitt. -Old bonds to the amount of \$27,-000 were exchanged at the treasury yes-

terday. -The city having purchased a gas machine to furnish light for the market house, Mr. Merrill, the contractor, is digging a pit in front of the building

There was a sharp frost yesterday morning, and the fruit-growers in vicinity are despondent-they think it has seriously damaged the prospects for a fourth crop.

-Mr. W. Scott Tucker who was so terribly injured by a cotton gin Friday afternoon, died at his house on Sunday morning. The funeral took place from Edenton Street M. E. Church yesterday afternoon. He leaves a wife and eight children.

-The market house clock was "out of kilter" again Sunday. The saw-mill interest of the concern was keeping up its timely reputation, but the bell, like all other belles, was three hours behind time. This is a striking commentary on the slowness of our city.

-Mr. Wayne Allcott has gone out Pittsboro way on business relating to new machinery contracts. He has numerous orders to fill next year in the line of farm machinery, and states that the prospects of a large business increase are bright.

-Anthony Rand is a lively gentleman of color. He makes acquaintances everywhere, the last one being sheriff Nowell. He had broken into a house, stolen some chickens, a gun and some clothing, and Justice Barbee thought that a gentleman of such brilliant attainments ought to be promoted to a position under the State, and most probably he will get it.

-The NEWSon Sunday stated the fact of the sale by Mr. Thomas Hopkins to the Messrs Stronach of four bales of cotton raised in 1863. Mr. Hopkins has twelve bales more of the same yield which the Stronachs would like to take at ruling prices. These bales he has had on hand for sixteen years. The sold his cotton it would have amounted to \$4,680, which sum put out and drawing compound interest would have amounted at the end of sixteen years to \$14,895. Now his sixteen bales at the average price of 12 will only bring him \$864-a dead loss of over \$14,000.

-Attention is directed to J. D Whitaker's notice of "Pill Box." He has several spans of horses that he desires to sell, but his bay team of Jack and Jim will doubtless be anxiously sought for by staid family men and livery stable proprietors. Here is a splendid chance to gratify a mother-in-law's inclination for a carriage ride; and if the statement of their most excellent qualities hangs anywhere on Truth's back fence, before the ride is completed, a sweet peace will steal gently over your soul and you will realize that your troubles are o'er. Obituary no-tices in such a case will be published in the News at twenty cents a line.

The following statement is going the rounds of the Northern papers, and if there is anything in the statement it will prove a blessing: "A child in Auburn, Maine, whose life was despaired of, is said to have been cured of dipthelime were kept constantly slaking near its mouth for over a day and a half, until over a barrel of lime was thus slaked. The child was thought to be dying before the remedy was employed. It breathed the fumes of the lime constantly until cured.'

Wilson, Jr., Miss Sallie Baldwin and Mr. Frank Bohannon, Miss Rosa Mickey and Mr. Henry Fries. At the conclusion of the ceremony the party was served with a bountiful repast at the residence of the bride's father, after which the contracting parties took the train for New York.

Penitentiary Arrivals.

Deputy Sheriff Brown, of New Hanover, has turned over to Captain Marsh the following prisoners, all colored and all sent up for larceny: Arthur Fisher, four years; James Doughty, Melvin Brown, Charlotte Beach and Jane Wil-

Caiston and George Stanfield, four years, and Peter Jessup, three years, to the contractors of the Cape Fear and Yadkin Valley Railroad. The enterprise heretofore exhibited by these talented individuals properly applied will, no doubt, bring that work to a speedy conclusion.

Piling Up the License Fees.

A correspondent writes as follows: "Mr. H. E. Hardly had the \$20 been paid when the Mayor came up and made a demand of \$10 municipal to. Great heavens? nicipal tax. 'Great heavens!' said he, is there any other tax in this town or county? Drowned in the Surf.

Wilmington Star, 6th. On Wednesday last a colored man named Henry Galloway was drowned in the surf off Middle Sound. It appears that the deceased, accompanied by Richard Tietgen, white, and two other colored men, started out in a boat to fish for trout. They launched the boat from the beach and attempted to cross the reef to get to their usual fishing ground, about a quarter of a mile out, when, the ocean being pretty rough, a heavy wave came and filled the boat with water, immediately succeeded by another which capsized the little craft and left the men at the mercy of the seething billows. Mr. Tietgen and two of his companions clung to the bottom of the boat, but Galloway released his hold and started to swim ashore. He had accomplished over half the distance when he seems to have changed his notion, for what cause no one can tell, and He swam very well and with apparent ease, and had succeeded in getting within about fifteen or twenty feet of the upturned boat, when a tremendous wave struck him and buried him in its bring depths. He arose to the surface again, but was instantly struck by another wave, and hurled backward, from the effects of which he never recovered, being seen no more by his comrades There were two other fishing boats out at the time, and near the scene of the disaster, one of which succeeded in rescuing the three men clinging to the boat, all of whom were in an expansted condition, one of them being almost in the act of releasing his hold and sinking to his threatened doom, when assist ance opportunely arrived.

Deceased was quite a young man, but eaves a wife and two children. His body had not been recovered up to Thursday night.

The body of Henry Galloway, the colored man who was drowned in the surf off Middle Sound on Wednesday ast, was found drifted ashore on the beach near where it went down on Friday morning. An inquest was subse-quently held over the body by Coroner Hewlett and a verdict of accidental drowning returned. The body was interred Friday afternoon.

Another Case of Drowning

Wilmington Star. A few nights since two colored men, David Wingate and Scipio Bryant, started from this city to the Clarendon rice plantation; the property of Col. S. L. Fremont, about five miles below this city, where Wingate was employed, when in attempting to cross the channel somewhere in the neighborhood of the old hospital, at Mt. Herzah, the small boat in which they had embarked was accidentally capsized. Bryant clung to the boat, and was subsequently res cued, but Wingate attempted to reach he shore, and being burthened with clothing and a heavy pair of boots, sank before reaching it and was drowned. He had been paid about sixty dollars that day by his employer, a good portion of which he spent before leaving the city, and he is said to have been somewhat under the influence of whisky, which, no doubt was one cause of the unfortunate accident which cost him his life. Deceased was about 26 or 27 years of age, and leaves a wife, but no children. His body had not been recovered at last ac-

Narrow Escape.

Wilmington Star, 6th. A colored woman by the name of Nellie Nixon, living near the corner of Eleventh and Dock streets, was in the act of filling a kerosene lamp, on Thursday night, with the burning wick turned to one side of the opening, when the oil suddenly ignited and the flames burst forth into her face. She dashed the lamp to the floor, when one of her sons, who happened to be standing close by, immediately threw a heavy woolen shawl over the fire and extinguished it before any damage was done, thus no doubt averting a serious accident. Many such have happened in

I offer for sale my running berse Pill Box, who came from the plow last August, having made a crop, and ran with 2 weeks' handling against trained thoroughbred race horses of reputation, beating them in half mile, mile and two miles races, at the Raleigh and Weldon fairs. He is a bright bay, fine form, and remarkably stylish, and is a most excellent saddle and double harness horse, is (6) six years passed, per-fectly sound. Also Flora and Dora, a pair dark bay mares, aged 5 and 6, of beautiful form, a match in color, size, and gait, sound, and not at all afraid of cars—an excellent coach team. And lastly Jack and Jim, a pair of bright bays, 6 and 8 years old. Jack is a bad runaway horse; Jim will not only run but kicks. This team is warranted as represented; special inducements will be offered a buyer. All at J. D. Whitaker's wood, coal and lumber yard, West Hargett St.

I have found no one single remedy to yield such satisfactory results as the "Seven Springs Mass." In the treatment of Dyspepsia, Chronic Diarrhœa, Anamia, Chlorosis, and for Chronic Eczema, I find it invaluable, associated with appropriate topical treatment. GEO. T. HARRISON, M. D.,

From my experience with the "Iron and Alum Mass," I believe it will prove the best medicine we have in use, for

THE SUN FOR 1880. The Sun will deal with the events of the year 1880 in its own fashion, now pretty weil understood by everybody. From January 1st until December 31st it will be conducted as a newspaper, written in the English language, and printed for the people. As a newspaper, the Sun believes in getting all the news of the world promptly, and presenting it in the most intelligible shape—the shape that will enable its readers to keep well abreast of the age with the least unproductive expenditure of time. The geatest interest to the greatest number—tha' is the law controlling its daily make-up. It now has a circulation very much larger than that of any other American newspaper, and enjoys an income which it is at all times prepared to spend liberally for the benefit of its readers. People of all conditions of life and all ways of thinking buy, and read Trus Says and they THE SUN will deal with the events of the ple of all conditions of life and all ways of thinking buy and read THE SUN; and they all derive satisfaction of some sort from it

ing it.

In its comments on men and affairs, THE SUN believes that the only guide of policy should be common sense, inspired by gen-uine American principles and backed by honesty of purpose. For this reason it is, and will continue to be, absolutely inde-pendent of party, class, clique, organiza-tion, or interest. It is for all, but of none. It will continue to praise what is good and reprobate what is evil. taking care that its It will continue to praise what is good and reprobate what is evil, taking care that its language is to the point and plain, beyond the cossibility of being misunderstood. It is uninfluenced by motives that do not appear on the surface; it has no opinions to sell, save those which may be had by any purchaser with two cents. It hates miustice and rascality even more than it hates unnecessary words. Itabhors fruds, pities fools, and deplores nincompoops of every species. It will continue throughout the year 1880 to chastise the first class, instruct the second, and discountenance the third. All honest men, with honest convictions. All honest men, with honest convicti whether sound or mistaken are its friends. And THE SUN makes no bones of telling the truth to its friends and about its friends whenever occasion arises for plain speak-

ing.
These are the principles upon which THE SUN will be conducted during the year to come.

The year 1880 will be one in which no patriotic American can afford to close his eyes to public affairs. It is impossible to exaggerate the importance of the political events which it has in store, or the necessity of resolute vigilance on the part of every citizen who desires to preserve the Government that the founders gave us. The debates and weight of Congress the unterances. Government that the founders gave us. The debates and acts of Congress, the ulterances of the press, the exciting contests of the Republican and Democratic parties, now nearly equal in strength throughout the country, the varying drift of public sentiment, will all bear directly and effectively upon the twenty fourth Presidential election, to be held in November. Four years ago next November the will of the nation, as expressed at the polls, was thwarted by an abominable conspiracy, the promoters and beneficiaries of which still hold the offices they stole. Will the crime of 1876 be repeated in 1880? The past decade of years opened with a corrupt, extravagant, and insolent Administration intrenched at Washington. The Sux did something toward dislodging the gang and breaking its power. The same men are now intriguing to restore their leader and themselves to piaces from which they were driven by the indignation of the work.

restore their leader and themselves to places from which they were driven by the indignation of the people. Will they succeed? The coming year will bring the answers to these momentous questions. The SUN will be on hand to chronicle the facts as they are developed, and to exhibit them clearly and fearlessly in their relations to expediency and right.

Thus, with a habit of philosophical good humor in looking at the minor affairs of life, and in great things a steadfast purpose to maintain the rights of the people and the principles of the Constitution against all aggressors, The SUN is prepared to write a truthful, instructive, and at the same time entertaining history of 1850.
